Data Protection Policy & Privacy Notice

Updated December 2023, next due for review December 2024

Person Responsible for updating policy: Data Controller

Introductory Statement

The school's Data Protection Policy applies to the personal data held by the school which is protected by the General Data Protection Regulation (EU) 2016/79.

The policy applies to all school staff, the Fellows, the Board of Management, its current, past and prospective pupils and their parents/legal guardians (and applicants for staff positions within the school) insofar as the measures under the policy relate to them. Data will be stored securely, so that it is protected in compliance with relevant legislation. This policy sets out the manner in which personal data and sensitive personal data will be protected by the school.

Data Protection Principles

The school is a data controller of personal data relating to its past, present and future staff, pupils, parents/guardians and other members of the school community. As such, the school is obliged to comply with the principles of data protection set out in the school's Data Protection Policy and this applies to the personal data held by the school which is protected by the General Data Protection Regulation (EU) 2016/79 and which is summarised as follows:

- Obtain and process Personal Data fairly, lawfully and in a transparent manner: Information on pupils is gathered with the help of parents/legal guardians and staff. Information is also transferred from their previous schools. In relation to information the school holds on other individuals (members of staff, individuals applying for positions within the School, parents/legal guardians of pupils etc.), the information is generally furnished by the individuals themselves as part of the contractual agreement on the understanding that the school requires such information to carry out its legitimate role as an employer and as a provider of education services to the pupils seeking to be enrolled and once they are enrolled. All such data is treated in accordance with the Data Protection Acts and the terms of this Data Protection Policy. The information will be obtained and processed fairly.
- Collect it only for one or more specified, explicit and lawful purposes: The School will inform individuals of the reasons they collect their data and will inform individuals of the uses to which their data will be put. All information is kept with the best interest of the individual in mind at all times.
- Process it only in ways compatible with the purposes for which it was given initially: Data relating to individuals will only be processed in a manner consistent with the purposes for which it was gathered. Information will only be disclosed on a need to know basis, and access to it will be strictly controlled.
- Keep Personal Data safe and secure: Only those with a genuine reason for doing so may gain access to the information. Sensitive Personal Data is securely stored under lock and key in the case of manual records and protected with firewall software and password protection in the case of electronically stored data. Confidential information will be stored securely and in relevant circumstances, it will be placed in a separate file which can easily be removed if access to general records is granted to anyone not entitled to see the confidential data.
- Keep Personal Data accurate, complete and up-to-date: Pupils, parents/legal guardians, and/or staff should inform the school of any change which the school should make to their personal data and/or sensitive personal data to ensure that the individual's data is accurate, complete and up-to-date. Once informed, the school will make all necessary changes to the relevant records. The Warden may delegate such updates/amendments to another member of staff. However, records must not be altered or destroyed without proper authorisation. If alteration/correction is required, then a note of the fact of such authorisation and the alteration(s) to be made to any original record/documentation should be dated and signed by the person making that change.
- Ensure that it is adequate, relevant and not excessive: Only the necessary amount of information required to provide an adequate service will be gathered and stored.
- Retain it no longer than is necessary for the specified purpose or purposes for which it was given: As a general rule, the information will be kept for the duration of the individual's time in the school. Thereafter, the school will comply with DES guidelines on the storage of Personal Data and Sensitive Personal Data relating to a pupil. In the case of members of staff, the school will comply with both DES guidelines and the requirements of the Revenue Commissioners with regard to the retention of records relating to employees. The school may also retain the data relating to an individual for a longer length of time for the purposes of complying with relevant provisions of law and or/defending a claim under employment legislation and/or contract and/or civil law.

- Provide a copy of their personal data to any individual, on request: Individuals have a right to know what personal data/sensitive personal data is held about them, by whom, and the purpose for which it is held.

Scope

Purpose of the Policy: The General Data Protection Regulation (EU) 2016/79 applies to the keeping and processing of Personal Data, both in manual and electronic form. The purpose of this policy is to assist the school to meet its statutory obligations, to explain those obligations to school staff, and to inform staff, pupils and their parents/guardians how their data will be treated.

The policy applies to all school staff, the Fellows, the Board of Management, parents/guardians, pupils and others (including prospective or potential pupils and their parents/guardians, and applicants for staff positions within the school) insofar as the school handles or processes their Personal Data in the course of their dealings with the school.

Implementation of this policy also takes into account the College's obligations and responsibilities to pupils who are data subjects. In particular, the Irish Office of the Data Protection Commissioner's guidance is that, 'Legal guardians can make an access request on behalf of a child. However, once a child is capable of understanding their rights to privacy and data protection, the child should normally decide for themselves whether to request access to data and make the request in their own name. Where an organisation receives an access request from a legal guardian on behalf of a child who has had direct interaction with that organisation, and/or where that child is capable of understanding their own rights to privacy and data protection, the organisation must take account of the child's rights in deciding how to respond to the access request.

Definition of Data Protection Terms

In order to properly understand the school's obligations, there are some key terms which should be understood by all relevant school staff:

Data means information in a form that can be processed. It includes both automated data (e.g. electronic data) and manual data. Automated data means any information on computer, or information recorded with the intention that it be processed by computer. Manual data means information that is kept/recorded as part of a relevant filing system or with the intention that it forms part of a relevant filing system.

Relevant filing system means any set of information that, while not computerised, is structured by reference to individuals or by reference to criteria relating to individuals, so that specific information relating to a particular individual is readily, quickly and easily accessible.

Personal Data means data relating to a living individual who is or can be identified either from the data or from the data in conjunction with other information that is in, or is likely to come into, the possession of the Data Controller.

Sensitive Personal Data refers to Personal Data regarding a person's

- racial or ethnic origin
- political opinions or religious or philosophical beliefs
- membership of a trade union

- 
- physical or mental health or condition or sexual life
 - commission or alleged commission of any offence or
 - any proceedings for an offence committed or alleged to have been committed by the person, the disposal of such proceedings or the sentence of any court in such proceedings, criminal convictions or the alleged commission of an offence.

Data Controller for the purpose of this policy is the Board of Management of St Columba's College located at Kilmashogue Lane, Whitechurch, Dublin 16 with the Warden being the contact person.

Rationale

In addition to its legal obligations under the broad remit of educational legislation, the school has a legal responsibility to comply with the General Data Protection Regulation (EU) 2016/79.

This policy explains what sort of data is collected, why it is collected, for how long it will be stored and with whom it will be shared. As more and more data is generated electronically and as technological advances enable the easy distribution and retention of this data, the challenge of meeting the school's legal responsibilities has increased.

The school takes its responsibilities under data protection law very seriously and wishes to put in place safe practices to safeguard individual's personal data. It is also recognised that recording factual information accurately and storing it safely facilitates an evaluation of the information, enabling the Warden, the Fellows and the Board of Management to make decisions in respect of the efficient running of the school. The efficient handling of data is also essential to ensure that there is consistency and continuity where there are changes of personnel within the school, the Fellows and the Board of Management.

Other Legal Obligations

Implementation of this policy takes into account the school's other legal obligations and responsibilities. Some of these are directly relevant to data protection. For example:

- Under Section 9(g) of the [Education Act, 1998](#), the parents of a pupil, or a pupil who has reached the age of 18 years, must be given access to records kept by the school relating to the progress of the pupil in their education
- Under Section 20 of the [Education \(Welfare\) Act, 2000](#), the school must maintain a register of all pupils attending the School
- Under section 20(5) of the Education (Welfare) Act, 2000, a principal is obliged to notify certain information relating to the child's attendance in school and other matters relating to the child's educational progress to the principal of another school to which a pupil is transferring
- Under Section 21 of the [Education \(Welfare\) Act, 2000](#), the school must record the attendance or non-attendance of pupils registered at the school on each school day
- Under Section 28 of the [Education \(Welfare\) Act, 2000](#), the school may supply Personal Data kept by it to certain prescribed bodies (the Department of Education and Skills, the National Education Welfare Board, the National Council for Special Education, other schools, other centres of education) provided the School is satisfied that it will be used for a "relevant purpose" (which includes recording a person's educational or training history or monitoring their educational or training progress in order to ascertain how best they may be assisted in availing of educational or training opportunities or in

- 
- developing their educational potential; or for carrying out research into examinations, participation in education and the general effectiveness of education or training)
- Under Section 14 of the Education for Persons with Special Educational Needs Act, 2004, the school is required to furnish to the National Council for Special Education (and its employees, which would include Special Educational Needs Organisers (“SENOs”)) such information as the Council may from time to time reasonably request
 - The Freedom of Information Act 1997 provides a qualified right of access to information held by public bodies which does not necessarily have to be “personal data” as with data protection legislation. While schools are not currently subject to freedom of information legislation, if a school has furnished information to a body covered by the Freedom of Information Act (such as the Department of Education and Skills, etc.) these records could be disclosed if a request is made to that body
 - Under Section 26(4) of the Health Act, 1947 a School shall cause all reasonable facilities (including facilities for obtaining names and addresses of pupils attending the school) to be given to a health authority who has served a notice on it of medical inspection, e.g. a dental inspection
 - Under Children First: National Guidance for the Protection and Welfare of Children (2017) published by the Department of Children & Youth Affairs, schools, their Boards of Management and their staff have responsibilities to report child abuse or neglect to TUSLA - Child and Family Agency (or in the event of an emergency and the unavailability of TUSLA, to An Garda Síochána) and/or An Garda Síochána in the event of knowledge or belief of a serious crime having been committed against a child or vulnerable person.

Relationship to characteristic spirit of the School (School’s mission/vision/aims)

The mission of the College is to aim to provide the best possible secondary education within a community that values and respects the Christian principle in a mainly boarding, co-educational environment.

Bearing in mind its Church of Ireland foundation, the College serves primarily Irish citizens from within that community. However, whilst the ethos is that of the Church of Ireland, the College has a vision of ecumenism which welcomes, values and respects pupils of other nationalities, denominations and religions.

We aim to achieve these goals while respecting the privacy and data protection rights of pupils, staff, parents/guardians and others who interact with us. The school wishes to achieve these aims/missions while fully respecting individuals’ rights to privacy and rights under the Data Protection Acts.

Personal Data

The Personal Data records held by the school may include:

STAFF RECORDS

Categories of staff data: As well as existing members of staff (and former members of staff), these records may also relate to applicants applying for positions within the school, trainee teachers and teachers under probation. These staff records may include:

October Returns

Categories:

At the beginning of each academic year (and for 1st year or transferring students, on enrolment) parents/legal guardians and pupils are asked to provide the school with certain information so that the School can make returns to the Department of Education and Skills (“DES”) referred to as “October Returns”. These October Returns will include sensitive personal data regarding personal circumstances which are provided by parents/legal guardians and pupils on the basis of explicit and informed consent. The October Return contains individualised data (such as an individual student’s PPS number) which acts as an “identifier” for the DES to validate the data that belongs to a recognised pupil. The DES also transfers some of this data to other government departments and other State bodies to comply with legislation, such as transfers to the Department of Social Protection pursuant to the Social Welfare Acts, transfers to the State Examinations Commission, transfers to the Educational Research Centre, and transfers to the Central Statistics Office pursuant to the Statistics Acts. The data will also be used by the DES for statistical, policy-making and research purposes. However the DES advises that it does not use individual data, but rather aggregated data is grouped together for these purposes. The DES has a data protection policy which can be viewed on its website (www.education.ie). The DES has also published a “Fair Processing Notice” to explain how the personal data of pupils as contained in October Returns is processed. This can also be found on www.education.ie (search for Circular Letter 0047/2010 in the “Circulars” section).

Purposes:

The school asks parents/legal guardians and pupil to complete October Returns for the purposes of complying with DES requirements to determine staffing and resource allocations and to facilitate the orderly running of the school. The main purpose of the October Returns is for the DES to determine whether the pupil qualifies for English language support and/or additional resources and support to meet their particular educational needs. The October

Returns are submitted to the DES electronically. The DES has their own policy governing the security of the data sent to them by all post-primary schools. The co-operation of each pupil and/or their parents/guardians in completing the October Return is greatly appreciated as the school's aim is to ensure that each pupil is assisted in every way to ensure that s/he meets his/her full potential.

Lawful basis for processing:

Legal basis

Location:

No hard files are kept, all information is held on P-Pod, the Department of Education's October Returns system.

Security:

The online records are password protected and have firewall software.

Is any of this data passed on? If yes, to what purpose?

Relevant data is passed onto the Department of Education as noted under the legal basis for collecting information..

How long do we keep the information? See Data Retention Policy.

Links to other policies and to curriculum delivery

Our school policies need to be consistent with one another, within the framework of the overall School Plan. Relevant school policies already in place or being developed or reviewed, shall be examined with reference to the data protection policy and any implications which it has for them shall be addressed.

The following policies may be among those considered:

- Child Protection Policy
- Anti-Bullying Policy
- Code of Behaviour
- Admissions/Enrolment Policy
- CCTV Policy
- ICT and Device Acceptable Usage Policy
- SPHE/CSPE etc.

Processing in line with data subject's rights

Data in this school will be processed in line with the rights of individuals as data subjects and these rights are as follows;

- The right to have personal information processed in a concise, transparent, intelligible and easily accessible form, using clear and plain language.
- The right to be informed, this means that the College needs to tell you what data we are using, why we are using it and for what purpose as well as informing you of the details of any third parties in receipt of data from the College.
- The right of access, you are allowed to see what data of yours we are processing if you request that from us.
- The right of rectification, that means if the data we are using is incorrect we have to correct it.
- The right to be forgotten, this means that we do not keep the data for a period longer than is necessary for the reason that it was originally collected. It also means that you have the right to issue a request to us requesting the erasure of your personal data. However, in many cases, the College will have overriding legitimate grounds for continued processing and will be unable to comply with such a request. This will be handled on a case by case basis, for further details please contact the College directly.
- The right to restrict processing, this means that you can ask us to stop using your data unless the College has a legitimate lawful purpose for continuing to do so.
- The right to data portability, this means that you have the right to move your data that you originally provided to the College to another data processor and the College has to provide you with this data in an acceptable format.
- The right to object, this means that you can object to the use of your data by the College and the College must stop using it unless it has an over-riding legitimate reason to continue.

Dealing with a data access request

As stated above, an individual has the right to be informed whether the school holds data/information about them and to be given a description of the data together with details of the purposes for which their data is being kept. The individual must make this request in writing to the Warden, they will then be provided with a Subject Access Request Form which we ask the individual to complete to assist us in complying with the request, however an individual is not obliged to complete this form. Prior to complying with a Subject Access Request, we require proof of the applicant's identity and address to ensure that the person making this access request is acting legitimately. Information requested will be provided by the College within one month of the identity of the individual of the data subject being verified.

No personal data can be supplied relating to another individual unless that third party has consented to the disclosure of their data to the applicant. Such consent must be given in

writing to the Warden. Data will be carefully redacted to omit references to any other individual and where it has not been possible to redact the data to ensure that the third party is not identifiable the school will refuse to furnish the data to the applicant. In compliance with GDPR organizations refuse to grant an access request where such a request is deemed manifestly unfounded or excessive. The right under Section 3 must be distinguished from the much broader right contained in Section 4, where individuals are entitled to a copy of their data.

Dealing with a data breach

Certain data breaches i.e., those that have the potential to have a significant detrimental effect on the individual through discrimination, damage to reputation, financial loss, loss of confidentiality or any other economic or social disadvantage must be reported by the College to the Data Protection Commission within 72 hours.

Where such a breach presents a high risk to the rights and freedoms of individuals, the College will also report the breach to the individual affected without undue delay.

Implementation arrangements, roles and responsibilities

In St Columba's College, the Board of Management is the data controller and the Warden will be assigned the role of co-ordinating implementation of this Data Protection Policy and for ensuring that staff who handle or have access to Personal Data are familiar with their data protection responsibilities.

The following personnel have responsibility for implementing the Data Protection Policy:

Ratification & communication

When the Data Protection Policy has been ratified by the Fellows and the Board of Management, it becomes the school's agreed Data Protection Policy. It should then be dated and circulated within the school community. The entire staff must be familiar with the Data Protection Policy and ready to put it into practice in accordance with the specified implementation arrangements. It is important that all concerned are made aware of any changes implied in recording information on pupils, staff and others in the school community.

Parents/guardians and pupils should be informed of the Data Protection Policy from the time of enrolment of the pupil e.g. by including the Data Protection Policy as part of the Enrolment Pack, by either enclosing it or incorporating it as an appendix to the enrolment form.

Monitoring the implementation of the policy

The implementation of the policy shall be monitored by the Warden and the Board of Management.

At least one annual report should be issued to the Board of Management to confirm that the actions/measures set down under the policy are being implemented.

Staff training will be carried out accordingly and reviewed regularly.

Reviewing and evaluating the policy

The policy will be reviewed annually by the Board of Management. On-going review and evaluation should take cognisance of changing information or guidelines (e.g. from the Data Protection Commissioner, Department of Education and Skills or the NEWB), legislation and feedback from parents/legal guardians, pupils, school staff and others. The policy should be revised as necessary in the light of such review and evaluation and within the framework of school planning.
